## Editorials Critical Of FBI, CIA

To the Editor:

I was not surprised to read your editorial entitled "No More Concentration Camps." Such is in keeping with your editorials and various other articles you have printed over the past 18 months. They were all derogatory of the FBI, the CIA and other security agencies.

These surveillance agencies have been in existence for decades and it is only since the revolutionary "anti-establishment" crowd came into being that undeserved criticism has been leveled at these agencies.

From your editorials and other writings, it is not difficult to observe where you stand.
